

April 2021

MIRABAUD ASSET MANAGEMENT LIMITED (“MAML”) ANNUAL BEST EXECUTION (TOP 5) DISCLOSURE 2020

MIRABAUD ASSET MANAGEMENT LTD (MAML) ANNUAL BEST EXECUTION (TOP 5) DISCLOSURE 2020

BEST EXECUTION

On an annual basis MAML is required to provide additional disclosures concerning direct “execution” on venues utilised for each asset class and also for “placement” of orders with third parties (brokers) it is obligated to provide certain information on the quality of execution in compliance with the requirements of Directive 2014/65/EU MiFID II Regulatory Technical Standard 28 (“RTS 28”) of the MiFID II Regulation for execution and Article 65(6) of the MiFID Delegated Regulation for placement of orders respectively as incorporated by the European Union (Withdrawal) Act 2018.

“Execution” in this context is where MAML executes an order directly against an execution venue (e.g. a regulated market, Multi-lateral trading facility (MTF), Organised Trading Facility (OTF) or Systematic Internaliser (SI) including Request for Quote (RFQ), use of Market Access-Market Maker or other Liquidity Provider, etc.. In such circumstances MAML must take all sufficient steps to obtain the best possible result for its Clients.

“Placement” in this context is where MAML places an order with another entity for *it* to execute orders on behalf of MAML such as a Broker or Direct Electronic Access Facility (DEA). In either case MAML owes a duty of best execution to its Clients. In such circumstances MAML must take all sufficient steps to obtain the best possible result for its Clients.

MIRABAUD ASSET MANAGEMENT (“MAM”) is the asset management business line of the wider Mirabaud Group which includes but is not limited to the following legal entities:

- **Mirabaud Asset Management Limited (MAML) (incorporating the MAM Central Dealing Desk) LEI:5493008QHW8K6ISW0Y12**
- Mirabaud Asset Management (Suisse) SA LEI: 549300Y7Q2CB0KNL2Q81
- Mirabaud Asset Management (France) SAS LEI: 969500LD8KZQY10YC496
- Mirabaud Asset Management (Espana) S.G.I.I.C., S.A.U. LEI: 25490077CFAR64Z30J18

Orders may be raised and executed or placed independently of MAML by the other Mirabaud Asset Management entities listed above. In practice this means that Mirabaud trading entities in different geographical locations may be utilised to execute particular orders for and on behalf of their Clients that are transacted by the MAM regional entity Desk that has the most relevant information about the market and/or financial instrument for each particular order. **This report only comments on orders that are originated by or routed via MAML.**

MAML in the exercise of discretion may on behalf of clients invest in entities which are trading counterparties of MAML however all decisions are made by the MAML Central Dealers independently and Fund Managers are unable to influence or otherwise “direct” the choice of execution venue. An investment in an execution venue is not a factor of choice for the Central Dealing desk. Certain Clients may on occasion reserve the right to “direct” orders for execution on specific venues and in such circumstances our duty of best execution is qualified. For the calendar year 2020 MAML did not receive or process any Client “directed orders”. MAML did not undertake any Securities Financing transactions. Details of the categories of asset classes as defined by MiFID and subsequently incorporated into UK law in which MAML was active are set out in Appendix 1.

CONFLICTS OF INTEREST

As an investment firm we are as part of the wider Mirabaud Group of companies affiliated to Mirabaud Securities Limited (“MSL”) LEI: 2138008Z5T61L1ZDWV35 which is authorised and regulated by the Financial Conduct Authority for the conduct of its investment business in the United Kingdom (FRN: 762066). MAML places trades for execution with a number of agency and matched principal brokers, which includes MSL. All orders placed for execution or otherwise transacted via the medium of direct electronic access that are made available to us with that entity are transacted at arm’s length on full commercial market terms and are subject to formal terms of business as for any other execution venue and are in turn subject to the same “best execution” obligations as for all other venues. There is no commercial incentive for MAML to route orders to MSL as the MAML Central Dealers’ sole focus is best execution determined in accordance with our published policy and on the basis of the factors set out below. In addition, MAML has used the custodians of investment funds as an Execution Venue for FX transactions including “Spot” trades during 2020.

The prime objective is for MAML to determine the best possible outcome for its Clients. In addition MAML adheres to an internal Conflicts of Interest Policy and as a UK asset manager authorised and regulated by the Financial Conduct Authority it is subject to a duty to act in Clients’ best interests at all times.

MIRABAUD ASSET MANAGEMENT LTD (MAML)

ANNUAL BEST EXECUTION (TOP 5) DISCLOSURE 2020

MAML does not have any contracted Retail Clients. In all our Agreements with Execution Venues and Approved Counterparties we secure our status as a *per se* Professional Client thereby ensuring that as Agent for our underlying Professional Client Principals we are owed a formal duty of Best Execution (MAML acting as Principal (Agent for undisclosed Client) with Execution venues and all our Broker Counterparties). As a globally focused institution we deal with most broking houses as well as specialist brokers in local markets. In the case of primary market transactions counterparty selection will be limited to the broker who presents the best opportunity. Our Order Execution Policy confirms our approach to Best Execution and how we seek to secure this. Within MAML we do not tolerate any direct execution by Fund Managers independently of the Central Dealing Desk. All execution decisions made by the Central Dealing Desk in London are subject to a single Order Execution Policy. Exceptionally we may undertake internal cross trades ("Agency crosses") for clients where this is of mutual benefit to each client but only where we can demonstrate best execution in our capacity as agent for both parties.

A transaction and cost analysis (TCA) is performed regularly with regard to equities and enables MAML to measure implicit costs, market impact timing and opportunity cost and helps capture how efficient the transaction process is at capturing the implicit value. TCA reports are considered regularly by an oversight Committee and independent testing is performed by Compliance.

Management tools are in place to analyse the Fixed Income transaction process ensuring that competing quotes are obtained where relevant and that exceptions are reviewed by Compliance and Risk. Counterparty concentration risk is kept under review by Risk and monitored in conjunction with the Head of Fixed income.

Over the past 12 months we have analysed best execution and MAML takes into account a number of execution factors dependent upon the asset class, characteristics of the order and prevailing market conditions. In determining the relative importance of the execution factors MAML will take into account each client's investment objectives, the specific financial instruments to which the order relates, the execution venues or placement counterparties available in the prevailing market. Whilst priorities may differ based on the characteristics of any given order for each asset class set out below, we have set out typical factors and the relative priorities for each in the context of our published Order Management Policy. MAML executes on specific venues and also places orders to be executed with Approved Counterparties. MAML does not utilise Commission Sharing Agreements nor does it operate Research Payment Accounts (RPAs). All equity trading is executed at "execution only" (i.e. unbundled) rates. The list of Approved Counterparties is reviewed regularly and changes over time. A list of Market makers and of Liquidity providers on which we place significant reliance is included within the Order Execution Policy published on our website and this Policy is reviewed and updated not less than annually. Amendments to the Approved Counterparty ("live") list are ambulatory and will be made taking into account a number of factors including creditworthiness, execution performance and regulatory history and are subject to change at short notice.

MAML does not permit the receipt of payments, discounts, rebates or other non-monetary benefits ("inducements") in its trading arrangements other than permitted "minor non-monetary benefits" as defined by the Financial Conduct Authority. MAML otherwise underwrites the full cost of research and absorbs the cost of this from its own resources (P&L). On occasion MAML may receive permitted "minor non-monetary benefits" as defined by FCA Regulations. Disclosure of typical benefits received and what these constitute in general terms is delivered periodically (not less than annually) to each of our Professional Clients.

MAML will assess information it obtains from execution venues following analysis of available RTS 27 outputs from Execution Venues and Liquidity Providers and RTS 28 reports provided by Executing Brokers (when issued) with whom orders are placed. For the year ending 2020 MAML considers it has met its obligation to achieve the best possible result for its Clients having taken all sufficient steps on a consistent basis. In identifying Orders which are "aggressive" (entered into a transparent order book which "took" liquidity) or "passive" (entered into a transparent order book which "made" (i.e. provided/increased) liquidity) MAML will only be in a position to do this where it is executing the order directly and thus able to reflect this indicator in its RTS 28 Report. Where an order is routed via MAML to a Trading Venue and hits an existing quote the transaction should be indicated as Aggressive. Conversely where an order is routed via MAML to the market and waits for a match it should be indicated as Passive. Any identification in the context of placement featuring in the (EU) 2017/565 "Delegated Regulation" Article 65(6) Report will be wholly dependent on reporting confirmation from the Broker executing the transaction ("Tag 851"). To the extent Tag 851 reporting is unavailable our ability to identify and report passive or aggressive fills (per order) is compromised and transparency will be limited. For placement we are therefore unable to report whether as a matter of fact the ultimate trade "fill" was passive or aggressive. We expect RTS 27 data (per delegated regulation (EU) 2017/575 to be available for analysis and where it is we consider its content to inform our opinions. There are currently no Consolidated Tape providers in Europe.

An internal MAML oversight committee ("The Best Execution & Broker Appointment Committee") convenes on a monthly basis in order to review adherence to the Order Execution Policy and to assess the performance of its execution venues and placement counterparties. The Committee receives dealing effectiveness monitoring reports and transaction cost analysis from its operational central dealing team (first line of defence) and also independently receives reports from its compliance monitoring function (second line of defence) regarding any trade "outliers" from pre-set tolerances. The Committee comprises senior investment, compliance and risk professionals who review the management information available for the traded financial instrument categories and reprises qualitative performance feedback with the Central Dealing representatives who attend in combination with assessment of objective Transaction Cost Analysis ("TCA") of data extracts from its portfolio management system. **We are required to ensure that machine readable versions of our annual reports are available and published on our website. A separate report in the format of a .csv file extracted from our portfolio management system and manipulated for presentation by MAML is available on our website. Both reports and the current version of our Order Execution Policy are published on our website www.mirabaud-am.com**

MIRABAUD ASSET MANAGEMENT LTD (MAML) ANNUAL BEST EXECUTION (TOP 5) DISCLOSURE 2020

RTS 28 Executed Orders - Equities – Shares & Depositary Receipts - Tick size liquidity bands 1 &2
Notification if <1 average trade per business day in the previous year Y

Top five execution venues ranked in terms of trading volumes (descending order)	Proportion of volume traded as a percentage of total in that class	Proportion of orders executed as percentage of total in that class	Percentage of Passive Orders	Percentage of Aggressive orders	Percentage of Directed orders

Top five execution venues ranked in terms of trading volumes (descending order)	Proportion of volume traded as a percentage of total in that class	Proportion of orders executed as percentage of total in that class	Percentage of Passive Orders	Percentage of Aggressive orders	Percentage of Directed orders
MIRABAUD SECURITIES LIMITED, 2138008Z5T61L1ZDWV35	14.46%	9.63%	55.48%	44.51%	0.00%
ATLANTIC EQUITIES, 213800327M9B4D9S1553	13.51%	8.28%	92.85%	7.14%	0.00%
RAYMOND JAMES FINANCIAL INTERNATIONAL, 213800GH3F4OW1COOV72	13.15%	8.39%	84.48%	15.51%	0.00%
OPPENHEIMER EUROPE, 213800CH61Z9J98PI559	11.94%	5.48%	96.05%	3.94%	0.00%
RBC Capital Markets, 549300LCO2FLSSVFFR64	9.88%	19.28%	95.64%	4.35%	0.00%

Execution Factors:

Liquid Equities – Price and cost will normally be the determining factors but other reasons may mean that likelihood of completion takes precedence.

Illiquid Equities - Price size of order and cost will normally be the determining factors but other reasons may mean for example that the likelihood of completion takes precedence.

MIRABAUD ASSET MANAGEMENT LTD (MAML) ANNUAL BEST EXECUTION/PLACEMENT (TOP 5) DISCLOSURES 2020

IMPORTANT INFORMATION

The top Five Execution Venues and Placement Counterparties (per asset class) contained in this report have been identified by MAML. It has been prepared based on our understanding of the second Markets in Financial Instruments Directive (“MiFID II”) taking into account mandatory Regulatory Technical Standards (“RTS”) published by the European Securities & Markets Authority (“ESMA”). The basis of the Report will be subject to change if the RTS is updated by ESMA. It is important to note that such amendments could take place without pre-notification or consultation with either MAML or the recipients of this report. This disclosure and accompanying information incorporated by reference herein is produced in good faith and is based on what MAML considers to be objective criteria in the context of regulatory standards imposed upon it. Third Party data: Where this document contains third party data we cannot guarantee the accuracy and completeness of content nor are we in a position to provide any warranty in relation thereto. No responsibility is accepted by MAML or any associated Mirabaud affiliate for errors or omissions.

Nothing in this communication is considered to constitute advice or a recommendation to engage or necessarily to disengage from an investment strategy or associated course of dealing.
